The Everything Kids' Environment Book: Learn How You Can Help The Environment-by Getting Involved At School, At Home, Or At Play

Synopsis

You Can Help Our Earth Live Longer! Everything we do has an impact on the world around us--from the clothes we wear and food we eat to the gardens we grow and the trash we throw away. And to take the best care of the earth--and ourselves--it's important to make smart choices. With The Everything Kids' Environment Book, you'll find out what you can do every day to help protect our planet. You'll also learn why the rainforest is so important to us, how animals go extinct, and what environmentalists can tell us about taking good care of our world. Learn how to "go green" and to: Find new uses for recycled grocery bags. Create your own greenhouse. Make acid rain--safely!--to see how it affects plants. Test organic food against foods grown with chemicals. Make your own compost pile. Re-create deforestation with the soil from timbered trees. Test your sensitivity to noise. Whether you are in the classroom, surfing the Internet, or just hanging out with your friends, you can make a difference. Start today--so our Earth can live another 4.5 billion years!

Grade Level: 4 - 7

Customer Reviews

I picked this book up because I wanted to work on doing some summer learning with my 6 1/2 and 7 year olds. I've only just started going through it and LOVE it! Almost every page has an activity related to what it's teaching. It's not about being an environmentalist, but helps explain our planet so

we know how we effect it. It's really well written and fun to go through. Great summer read!

Yet another wonderful, creative book for teachers, parents, and children. I loved how each section dealt with a particular issue. The colorful illustrations, and straightforward prose made this my number one reference book! Thanks, Jen Cullerton Johnson[...]

I ordered this book to help teach children about the environment. I am in a women's club and we go to a local primary school and give programs. This month we are featuring conservation. The book was filled with a great amount of information. I am sure I will use it many times.

If you're looking for ways to encourage your child to be more environmentally conscious this a book for you. It has special crafts, and projects you can do to help your child go green. We loved how they provide instructions on how to make your own recycled paper!

Great book - lots of important information, projects, activities for the younger person interested in learning and doing more for the environment. We give FREE environmental presentations to schools, scouts and organizations. After reviewing the contents - we will be purchasing additional copies to enhance the school libraries.
