Age Range: 10 - 14 years

Grade Level: 5 - 9

Customer Reviews

I can only guess the authors used up all the good mnemonics in previous books. Most of the "cool ways" to remember stuff in this book at is harder to remember than just remembering what you are trying to learn. For instance, in order to remember the capital of Minnesota you have to remember it is in the third fifth of the states when listed in alpha order, and corresponds to the the third word in the sentence, "Beautiful Ladies Slurp Juicy Jellies Happily, Looking Completely Cool, Too." And that "Slurp" corresponds to "St. Paul". I am not making this up.

Loved this book. Very funny yet educational. I used it with middle school kids to help them remember how to spell those words that puzzle us. This was especially helpful with our non~English speaking students. They laughed Nd learned!

There are many great memory tricks that are well worth the price of the book if you are trying to teach your kids or a classroom. Most are ones that you would never remember or use. It is the kind of book with phrases that you would probably have to hear several times before they sink in.

It's a cute fun book for people who have spelling issues. Kids and adults both like it and have fun testing each other,

This book provides simple and easy ways to remember grammar rules that we learned in school but easily forget!

Arrived just as described. won't hesitate to buy from this seller again.

Great helpful book that is full of information for the whole family.

I like books like this. Never too old to learn something new.
