Bobbie Kalman's EXPLORE EARTH'S FIVE OCEANS and EXPLORE EARTH'S SEVEN CONTINENTS each pack in 32 pages of detail for grades 2-3, using larger print, eye-catching color photos, and photos of kids around the world to cement geography details. The 'Let's Rock' series answers basic questions about geology and are fine picks for elementary science collections for grades 3-6.

Purchased for a homeschool unit and I love that the info is clear and concise without being boring. My daughter has already skimmed through the book and is really excited about using them in school.

Love Bobbie Kalman books!

Great
